mireille gourbin

## Testimonial for - Mireille Gourbin

Furnishing a three bedroom house is a daunting challenge, add the complexity of a property overseas, limited time and budget and then add the vital ingredient, Mireille Gourbin!

With careful support I was able to furnish on time an overseas property with passion and style that matched my needs, personality and budget.

I thoroughly enjoyed the experience and have learned so much in the art of planning for each room, mixing textiles, the importance of indulgence and luxury, colour combination, to name only a few.

My budget on this particular property is nearly matched; however I will continue to sustain a long working relationship with Mireille and look forward to exploring further treasures to enhance my homes and everyday pleasure.

It is without hesitation that I recommend her services with complete panache and individual style. I know Mireille would like to venture into the corporate world and perhaps boutique hotels. Seeing her recent impressive exhibition in Chelsea, I know her dreams will come true.
